SUBMISSIONIQ — AGENT VALIDATION TEST CASE

Test ID: SIQ-AGENT-002 | Fictional commercial property submission | Effective date: 1 December 2026

Purpose: This single PDF consolidates the broker application, statement of values, valuation extract, inspection evidence, five-year loss history, and broker-to-insurer email. It is designed to test extraction, validation, cross-document comparison, appetite rules, risk summary, and broker email drafting. Two small data discrepancies are intentional.

1. Broker Application

Field	Declared information
Named insured	BluePeak Cold Chain Logistics LLC (fictional)
Risk location	4100 Meridian Parkway, Houston, Texas 77032, USA
Class of business	Cold storage warehouse and temperature-controlled food distribution

Date: 3 November 2026
Subject: New Commercial Property Submission — BluePeak Cold Chain Logistics LLC

Dear Underwriting Team,

Please find attached our submission for BluePeak Cold Chain Logistics LLC, a cold storage and temperature-controlled food distribution operation in Houston, Texas. The requested effective date is December 1, 2026. Our broker statement of values reports a total insured value of $18,500,000, comprising building, equipment/contents, stock, and business interruption.

The property is reported as a two-story steel portal-frame building constructed in 2018, with automatic sprinkler protection. The insured has operated since June 2018. The attached loss history lists two closed losses with total paid of $250,000 and no outstanding reserves.

Please review the submission against your underwriting guidelines and advise whether it can be considered within your authority or requires referral.

Kind regards,
Commercial Property Placement Team
Harborview Brokers (fictional)

7. Configured Guideline Values for Reference

Guideline	Configured rule
Preferred / Referral / Prohibited classes	Cold storage is a Referral class
Admitted states	TX, OK, LA, AR, MS, AL, GA, TN, NC, SC, VA, OH, IN, IL, MO, KS, AZ, NM, CO
Underwriting authority (TIV)	$10,000,000
Maximum capacity (TIV)	$25,000,000
Sprinklers above	$5,000,000 TIV
Frame maximum stories	3
Refer if built before	1960
Loss window	5 years
Refer at number of losses	4 or more
Refer single loss	$250,000 or more
Decline total paid losses	$750,000 or more
Minimum years in business	2
Refer protection class	9 or higher

Test note: All names, addresses, companies, emails, and risk data are fictional. The broker SOV reports TIV of $18.50M while the valuation extract totals $18.35M. Building area also differs across three sources (64,800; 65,250; and approximately 64,950 sq. ft.). The app should preserve these source values and flag discrepancies instead of silently choosing one.
